CAMERA	Medium — phone and Alex's face
LIGHTING	Soft blue screen light
MOOD	Unconscious spending — the absence of friction
CHARACTER ACTION	Finger scrolls and taps effortlessly — no internal resistance
CAPCUT MOTION	ZOOM IN SLOW · 4s — toward the phone screen

BEAT 20

"Your brain is still waiting for the money to actually leave."

IMAGE PROMPT:

Alex's skull interior: Brain Villain looks around confused, waiting for a signal that never comes. Outside the skull, money has already left the account — bank balance on phone shows lower number. Internal lag vs external reality.

CAMERA	Medium — skull interior + phone balance juxtaposed
LIGHTING	Warm skull interior vs cool phone light
MOOD	Delay — the internal lag is the trap

CAMERA	Split composition — the two columns
LIGHTING	The EXTRA column has warmer, more inviting light
MOOD	Distinction — this is beyond compensation, it's reward logic
CHARACTER ACTION	Brain Villain's finger taps EXTRA with emphasis
CAPCUT MOTION	ZOOM IN SLOW · 3s — toward the EXTRA column

BEAT 27

"I worked hard. I deserve this."

IMAGE PROMPT:

Speech bubble from Alex's direction — but it floats inside the skull, not from Alex's mouth. It's the Brain Villain's voice, not a conscious decision. The words: I WORKED HARD. I DESERVE THIS. Bold inside the bubble.

CAMERA	Close-up — skull interior + speech bubble
LIGHTING	Warm amber skull light
MOOD	The justification — self-serving but feels noble

BEAT 29

"Number three. The Invisible Drain."

CAMERA	Close-up — phone screen with subscription app grid
LIGHTING	Screen glow, dark surroundings — late night feel
MOOD	Introduction — something hidden is running
CHARACTER ACTION	Alex stares at the apps with faint recognition — 'oh, those are still there'
CAPCUT MOTION	ZOOM IN SLOW · 4s — into the dusty app icons

■■ ITEM 3 ■■

BEAT 30

"Right now, you have at least three subscriptions you've forgotten about."

IMAGE PROMPT:

Grid of subscription logos (generic icons, no real brands) — three of them have 'last opened: 4 months ago' timestamps. The apps are running silently.

CAMERA	Wide — the full grid visible
--------	------------------------------

LIGHTING	Dark screen-glow only — the darkness emphasizes invisibility

CAPCUT MOTION	ZOOM OUT SLOW · 3s — reveal full grid of subscriptions

Alex staring at the subscription list. His hand reaches for the cancel button — but stops. Brain Villain inside skull holds up a 'WAIT' sign. The pause is the trap.

CAMERA	Medium — Alex + phone, hand frozen
LIGHTING	Soft screen light
MOOD	The friction — cancellation requires a decision
CHARACTER ACTION	Hand hovering over cancel button — mid-air, frozen
CAPCUT MOTION	STATIC · 3s — the freeze is the point

BEAT 34

"Because cancelling requires a decision. And decisions cost energy."

IMAGE PROMPT:

Alex's energy meter (a visual gauge, like a phone battery) sitting at LOW. Two arrows: one points to SUBSCRIBE (easy) → energy meter barely drops. One points to CANCEL (hard) → energy meter drops more. The asymmetry is visual.

CAMERA	Wide — energy meter + decision arrows
LIGHTING	Clean white background — diagram clarity
MOOD	Energy economics — the cost of action vs inaction
CHARACTER ACTION	Brain Villain points at the asymmetry with a knowing nod
CAPCUT MOTION	ZOOM IN SLOW · 4s — into the energy meter

BEAT 35

CAMERA	Medium — calendar + logo
LIGHTING	Clean neutral light
MOOD	Understated value — no hype, just regularity
CHARACTER ACTION	Alex nods once, returns to the list — CTA done, moving on
CAPCUT MOTION	STATIC · 3s

■■ ITEM 2 — SOCIAL SPENDING ■■

BEAT 38

"Number two. Social Spending."

IMAGE PROMPT:

■■ ITEM 2 ■■

BEAT 39

"You bought something this month for an audience that wasn't watching."

CAPCUT MOTION	PAN LEFT · 4s across the empty lot

BEAT 41

MOOD	Confrontation — gentle, not accusatory

CAPCUT MOTION	STATIC · 3s — let the question breathe

BEAT 44

"They don't exist. They're a projection."

CHARACTER ACTION	Brain Villain checks each box efficiently — doing real financial work
CAPCUT MOTION	ZOOM IN SLOW · 4s — into the allocation boxes

BEAT 55

"And then — quietly — a few things that feel deserved."

IMAGE PROMPT:

The allocation boxes continue: after RENT, BILL, DELAYED THING — a fourth box appears, smaller, slightly dimmer: 'DESERVED EXTRA'. Brain Villain adds it quietly, almost sheepishly.

CAMERA	Close-up — the fourth box appearing

MOOD	The creep — the deserved items slip in quietly
CHARACTER ACTION	Brain Villain adds the fourth box with a subtle gesture — not announcing it

Split: left — WEDNESDAY (mental spend complete, arrows all allocated). Right — FRIDAY (money arrives, immediately absorbed). The arrow from right to left shows the mental spend preceded the physical arrival.

CAMERA	Wide — split timeline
LIGHTING	Clean white diagram light
MOOD	The inversion — mental precedes physical
CHARACTER ACTION	Brain Villain on the Wednesday side looks smug — 'already handled it'
CAPCUT MOTION	PAN LEFT · 3s — from Friday back to Wednesday (reverse direction is the point)

BEAT 58

"You don't spend your salary. You process a transaction your brain closed on Wednesday."

Alex at ATM or bank app — Friday. The transaction processes. But Brain Villain holds up a 'RECEIPT' dated WEDNESDAY. The deal was done two days ago.

CAMERA	Close-up — the Wednesday receipt in Brain Villain's hand
LIGHTING	Cool ATM light
MOOD	The reframe — the action was earlier than the event
CHARACTER ACTION	Brain Villain hands the Wednesday receipt to Alex — 'just confirming what I already decided'
CAPCUT MOTION	ZOOM IN FAST · 1.5s → onto the WEDNESDAY date on the receipt

■■ MECHANISM CONCLUSION ■■

BEAT 59

CHARACTER ACTION	Alex stands in front of the complete list — the full picture visible
CAPCUT MOTION	ZOOM OUT SLOW · 5s — pull back to reveal all five simultaneously

BEAT 60

"Card Gap. Reward Drain. Invisible Drain. Social Spending. Pre-Spend."

IMAGE PROMPT:

Each slot highlighted in sequence as the names are spoken — a rapid highlight sequence. The names land one by one.

CAMERA	Wide — same list view
LIGHTING	Each slot pulses briefly as named
MOOD	Recognition — the viewer names them too
CHARACTER ACTION	Alex's finger points to each in sequence — naming them out loud
CAPCUT MOTION	ZOOM IN FAST · 0.5s per slot — five rapid hits

BEAT 61

"None of them feel like mistakes when they happen."

IMAGE PROMPT:

Alex mid-Card Gap tap, mid-Reward purchase, mid-subscription-ignore — three micro-scenes in one frame. Expression in each: completely normal, reasonable, justified. No guilt visible.

CAMERA	Triptych — three micro-scenes
LIGHTING	Normal, ambient light in each — nothing dramatic
MOOD	Normality — these feel correct in the moment
CHARACTER ACTION	Alex in each mini-scene looks completely at ease — that's the trap
CAPCUT MOTION	PAN RIGHT · 4s across the three scenes

BEAT 62

LIGHTING	Clean light
MOOD	The subjective reality — it genuinely feels this way
CHARACTER ACTION	Alex taps card with mild pleasure — the convenience is real to him
CAPCUT MOTION	ZOOM IN SLOW · 2s

BEAT 63

"The Reward Drain feels earned. The Social Spend feels reasonable. The Pre-Spend feels like planning."

IMAGE PROMPT:

Three slots in rapid sequence: REWARD DRAIN + EARNED · SOCIAL SPENDING + REASONABLE · PRE-SPEND + PLANNING. Each pairing makes ironic sense. The trap is the logic.

CAMERA	Rapid three-panel reveal
LIGHTING	Warm light on each — they all feel right
MOOD	Ironic recognition — the feelings are real, the patterns are traps
CHARACTER ACTION	Alex nods at each pairing — 'yes, that's exactly how it felt'
CAPCUT MOTION	ZOOM IN FAST · 1s per panel — three rapid hits

■■ THE STRUCTURAL FIX ■■

BEAT 64

"The fix isn't 'spend less.'"

IMAGE PROMPT:

The words SPEND LESS crossed out with a bold red X. Not because spending less is bad — but because it's not a system. Alex beside it, nodding. He already knew this wasn't the answer.

CAMERA	Wide — the crossed-out advice
LIGHTING	Clean white background
MOOD	Dismissal — the obvious answer isn't the right one
CHARACTER ACTION	Alex gestures toward the X with agreement — 'already tried that'
CAPCUT MOTION	ZOOM IN FAST · 1.5s → onto the red X

BEAT 65

"That's not a system. That's a wish."

IMAGE PROMPT:

Split: SYSTEM (gears interlocking — a mechanism) vs WISH (a single star — a hope). SPEND LESS goes in the WISH column. Nothing in the SYSTEM column yet.

CAMERA	Split panel — SYSTEM vs WISH
LIGHTING	Clean diagrammatic light
MOOD	The distinction — wishes vs systems
CHARACTER ACTION	Alex moves 'spend less' label from one side to the other — it belongs in WISH
CAPCUT MOTION	PAN LEFT · 2s then PAN RIGHT · 2s — showing both columns

BEAT 66

"For the Card Gap: switch one category to cash. Groceries. Restaurants. One category."

IMAGE PROMPT:

Alex at grocery store with physical cash. Expression: slightly more deliberate — the friction is intentional now. Brain Villain feels the signal it was missing.

CAMERA	Medium — grocery checkout, cash transaction
LIGHTING	Warm grocery store light
MOOD	Friction by design — the solution is structural
CHARACTER ACTION	Alex counts bills deliberately — feeling each one leave
CAPCUT MOTION	ZOOM IN SLOW · 3s — toward the cash leaving Alex's hand

BEAT 67

"You don't need to feel the money leaving everywhere. Just somewhere."

IMAGE PROMPT:

EVERYWHERE (credit card icons filling the frame — overwhelming) vs SOMEWHERE (one cash transaction — specific, intentional). The targeted friction beats total friction.

CAMERA	Split panel — everywhere vs somewhere
LIGHTING	Cooler light on EVERYWHERE (chaos), warmer on SOMEWHERE (controlled)
MOOD	Targeted precision — one point of friction is enough
CHARACTER ACTION	Alex's hand in the SOMEWHERE panel — deliberate, calm
CAPCUT MOTION	ZOOM IN SLOW · 3s — toward the SOMEWHERE panel

BEAT 68

"For the Reward Drain: budget it. €80 a month. 'This is my earned money.'"

IMAGE PROMPT:

Alex's monthly budget on screen. New category: EARNED EXTRA — €80. The category has its own dedicated slot. The villain has a container now.

CAMERA	Medium — budget screen
LIGHTING	Warm accounting light
MOOD	Containment — giving the pattern a sanctioned outlet
CHARACTER ACTION	Alex adds the EARNED EXTRA line with deliberate satisfaction
CAPCUT MOTION	ZOOM IN FAST · 1.5s → onto the EARNED EXTRA €80 line

BEAT 69

CAMERA	Close-up — the empty budget slot
LIGHTING	Neutral light — this is fine, not a failure
MOOD	Sufficiency — the container works
CHARACTER ACTION	Brain Villain looks at empty slot and shrugs — 'fair enough'
CAPCUT MOTION	STATIC · 2s

BEAT 70

"For the Invisible Drain: one audit. Once a year. Not monthly — once."

IMAGE PROMPT:

Calendar with ONE annual date circled: SUBSCRIPTION AUDIT. All other months empty — no recurring task. The simplicity is the solution.

CAMERA	Wide — full year calendar
LIGHTING	Clean neutral light
MOOD	Simplicity — one action, maximum leverage
CHARACTER ACTION	Alex circles the annual date with deliberate confidence — this is manageable
CAPCUT MOTION	ZOOM IN SLOW · 3s — toward the single circled date

BEAT 71

"For Social Spending: one question before every non-essential purchase."

IMAGE PROMPT:

Alex mid-purchase — hand reaching for a product. Thought bubble appears: WHO AM I BUYING THIS FOR? The question pauses the action.

CAMERA	Medium — purchase pause moment
LIGHTING	Warm store light, slightly desaturated to indicate pause
MOOD	The pause — the question creates friction
CHARACTER ACTION	Alex's hand freezes mid-reach — the question stops the automatic motion
CAPCUT MOTION	STATIC · 3s — the pause is the mechanism

BEAT 72

"'Who am I buying this for?' If the answer isn't you — pause."

IMAGE PROMPT:

Alex's thought bubble shows: ME (clear, solid figure) vs GHOST AUDIENCE (transparent, dissolving). The answer determines the purchase.

CAMERA	Close-up — the two-option thought bubble
LIGHTING	Thought bubble has warmer light on ME side
MOOD	Decision clarity — the question cuts through
CHARACTER ACTION	Alex tilts head considering — actually evaluating, not defaulting
CAPCUT MOTION	ZOOM IN FAST · 1.5s → onto the ME vs GHOST split

BEAT 73

"For the Pre-Spend: the salary hits the account. You don't touch it for 24 hours."

IMAGE PROMPT:

Friday: salary notification appears. Alex's phone flips face-down. Timer starts: 24 HOURS. The deliberate pause — the gap between arrival and allocation.

CAMERA	Medium — phone face-down with timer
LIGHTING	Neutral Friday light
MOOD	The gap — the pause prevents the automatic allocation from winning
CHARACTER ACTION	Alex places phone face-down with intention — the gesture is the system
CAPCUT MOTION	ZOOM IN SLOW · 3s — toward the phone going face-down

■■ BRAIN VILLAIN'S LAST TRICK ■■

BEAT 74

"The Brain Villain has one response to this list."

CHARACTER ACTION	Alex holds gaze at camera — knowing, not accusatory
CAPCUT MOTION	STATIC · 3s

CAMERA	Close-up — Villain in the wisdom costume
LIGHTING	Soft light — nothing alarming, just quiet
MOOD	The disguise — resistance doesn't look like resistance
CHARACTER ACTION	Brain Villain adjusts its 'wise' costume, expression calm and reasonable
CAPCUT MOTION	ZOOM IN SLOW · 3s — into the wisdom costume

BEAT 77

"Something that sounds like common sense: 'I already know this.'"

IMAGE PROMPT:

Speech bubble from the Villain's direction: 'I ALREADY KNOW THIS.' The bubble looks calm, reasonable, like genuine insight. That's the trap.

CAMERA	Close-up — the speech bubble
LIGHTING	Soft warm light — the comfort of familiarity
MOOD	The false insight — knowing and changing are not the same
CHARACTER ACTION	Brain Villain nods sagely at the speech bubble — very pleased with itself
CAPCUT MOTION	ZOOM IN FAST · 1.5s → onto the speech bubble text

BEAT 78

"That thought is not wisdom. Not self-awareness."

IMAGE PROMPT:

The 'I ALREADY KNOW THIS' bubble gets a red border — reclassified. It moves from the WISDOM column to a new column: INVISIBLE DRAIN, WEARING INSIGHT COSTUME.

CAMERA	Wide — the reclassification happening
LIGHTING	Slightly cooler light as the reclassification occurs
MOOD	Exposure — the false label is corrected
CHARACTER ACTION	Alex watches the reclassification with recognition — 'oh. oh no.'
CAPCUT MOTION	ZOOM IN FAST · 1s → onto the reclassification arrow

BEAT 79

CAMERA	Close-up — Invisible Drain slot in the wisdom costume
LIGHTING	Slightly deceptive warm light — it looks wise, it isn't
MOOD	The revelation — pattern recognition transfers
CHARACTER ACTION	Brain Villain points at the costumed slot with satisfaction — 'exactly'
CAPCUT MOTION	STATIC · 3s — the metaphor lands

CHARACTER ACTION	Brain Villain looks at the banner and nods — 'correct'

BEAT 81

"They were built for a world where money was physical — coins you could feel, resources you could see leaving."

IMAGE PROMPT:

Historical scene: Alex's ancestor holding physical coins, trading at a market. The money transfer is visible, tactile, real. The programs evolved for THIS world.

CAMERA	Wide — historical scene, warm earth tones
LIGHTING	Warm historical light — past world
MOOD	Origin — the programs have legitimate history
CHARACTER ACTION	Historical Alex (same character, different era context) examines coins carefully
CAPCUT MOTION	PAN RIGHT · 4s — across the historical scene

BEAT 82

"In that world, the Pre-Spend was planning. The Reward Drain was recovery. The Card Gap didn't exist."

IMAGE PROMPT:

Split three-part panel: PRE-SPEND = PLANNING AHEAD. REWARD DRAIN = RECOVERY. CARD GAP = ? (slot empty — it didn't exist in that world).

CAMERA	Triptych — three historical reframings
LIGHTING	Warm historical light throughout
MOOD	Historical accuracy — these were rational behaviors
CHARACTER ACTION	Brain Villain stands beside each panel nodding — 'these were good programs'
CAPCUT MOTION	PAN RIGHT · 4s across the three historical framings

BEAT 83

"The Brain Villain was built for that world. Not this one."

IMAGE PROMPT:

Split: THAT WORLD (physical coins, historical context — Brain Villain fits perfectly) vs THIS WORLD (direct deposits, one-click payments — Brain Villain is misaligned). Same program. Different world. Mismatch.

CAMERA	Split panel — historical world vs modern world
--------	--

LIGHTING	Warm historical light vs cool modern light
MOOD	The mismatch — the problem is context, not the program
CHARACTER ACTION	Brain Villain stands in the historical world looking comfortable; in the modern world looking confused
CAPCUT MOTION	PAN LEFT · 3s then PAN RIGHT · 3s

BEAT 84

"These five systems were designed for the world you actually live in."

IMAGE PROMPT:

The five solutions from earlier — CASH CATEGORY, EARNED CONTAINER, ANNUAL AUDIT, THE QUESTION, 24-HOUR GAP — now displayed against the modern world background. They fit. The programs don't. The systems do.

LIGHTING	Clean modern light
MOOD	The fit — the solutions were designed for this environment
CHARACTER ACTION	Alex stands beside the five modern solutions — they belong in his world
CAPCUT MOTION	ZOOM OUT SLOW · 5s — reveal all five systems in their context

CAPCUT MOTION	ZOOM IN SLOW · 3s — toward Alex's new expression

BEAT 86

"It follows five very predictable routes."

IMAGE PROMPT:

CAPCUT MOTION	STATIC · 3s — let the names settle
---------------	------------------------------------

CHARACTER ACTION	Brain Villain stares at the ONE DECISION slot — slightly alarmed
CAPCUT MOTION	ZOOM OUT SLOW · 4s — reveal all the connections from one point
