

CRAYON CAPITAL — CLONE SESSION · VIDEO 2

STATE 9 — VIDEO PROMPTS

"Por qué comprar se siente mejor que tener" · The Dopamine Trap

Un video prompt para cada uno de los 127 beats. Por volumen, en 4 partes.

VIDEO PROMPTS — PARTE 1 (Beats 1–36)

BEAT 1 *"You didn't choose to buy it."*

Video Prompt: Static shot. The brain slowly lowers its pointing arm and smirks. Character blinks once, oblivious. 2s subtle loop.

BEAT 2 *"Your brain did. About 200 milliseconds before you even knew you wanted it."*

Video Prompt: Static. Yellow halo pulses outward twice; the '0.2s' readout flickers in. Brain grins. 2s.

BEAT 3 *"That's not a metaphor. That's a neuroscience study."*

Video Prompt: Static. Character lifts the document slightly; brain gives a small two-finger wave. 2s.

BEAT 4 *"And it's the most expensive thing nobody ever taught you."*

Video Prompt: Slow push-in toward the empty chalkboard slot; faint outline flickers. 3s.

BEAT 5 *"Here's what actually happens when you tap 'buy now.'"*

Video Prompt: Static. The finger lowers a few pixels toward the button and holds; green button pulses once. 2s.

BEAT 6 *"A region deep inside your brain called the nucleus accumbens fires a shot of dopamine"*

Video Prompt: Static diagram. The labeled region pulses gold; three tiny lightning bolts flick outward in sequence. 3s.

BEAT 7 *"— the same chemical released by cocaine, gambling, and sex."*

Video Prompt: Static panels. Slot coins fall in a short loop; hearts bob; the 'SAME CHEMICAL' label flashes once. 3s.

BEAT 8 *"Not after the package arrives. Not when you open it. The moment you decide to buy."*

Video Prompt: Static. The gold burst on 'DECIDE' expands and contracts once while steps 2 and 3 stay flat gray. 3s.

BEAT 9 *"The anticipation is the high. The product is just the excuse."*

Video Prompt: Static split. Left brain glows brighter; right brain dims further; character's right-side shoulders slump. 3s.

BEAT 10 *"And the second it arrives, the dopamine is already gone."*

Video Prompt: Static. The yellow wisp drifts upward and fully dissolves; character's eyes lower slightly. 3s.

BEAT 11 *"Which is exactly why you're already looking at the next thing."*

Video Prompt: Static. The box tilts a few degrees lower while the brain's yellow glow brightens. 2s loop.

BEAT 12 *"Let's go back to 1954. Montreal."*

Video Prompt: Very slow push-in on the cityscape; the 'MONTREAL — 1954' card fades in. 3s.

BEAT 13 *"Two neuroscientists named James Olds and Peter Milner are running an experiment on rats."*

Video Prompt: Static. One scientist makes a small note on the clipboard; the rat shifts inside the enclosure. 3s.

BEAT 14 *"They implant tiny electrodes directly into the reward centers of rat brains."*

Video Prompt: Static diagram. The two gold electrode tips pulse once in sync. 2s.

BEAT 15 *"Then they give each rat a lever. Press the lever, get a dopamine hit. Direct. Instant."*

Video Prompt: Static. The rat presses the lever; the gold 'DOPAMINE' burst pops and fades, then repeats. 2s loop.

BEAT 16 *"No effort required. The rats stopped eating."*

Video Prompt: Static. The rat's head turns briefly toward the bowl, then snaps back to the lever. 2s.

BEAT 17 *"They stopped sleeping. They stopped doing anything except pressing the lever."*

Video Prompt: Static. The rat's paws pump the lever in a tight repetitive loop. 2s loop.

BEAT 18 *"Over and over. Thousands of times per hour. Until some of them died."*

Video Prompt: Static. The counter number rapidly increments; the paw keeps pressing. 3s.

BEAT 19 *"The scientists stood there watching, slowly realizing they hadn't just discovered something about rats."*

Video Prompt: Static. One scientist's clipboard slips a little lower; both stare without moving. 3s.

BEAT 20 *"They had found the override switch for any brain complex enough to want things."*

Video Prompt: Static. The switch's gold glow intensifies; the brain's smirk widens slightly. 2s.

BEAT 21 *"Including yours."*

Video Prompt: Static. The 'YOU' arrow nudges in; the skull switch glows once. 2s.

BEAT 22 *"The lever changed shape. But the experiment never ended."*

Video Prompt: Static. The dotted arrow draws itself left to right; the smartphone button pulses at the end. 3s.

BEAT 23 *"Fast forward. You wake up and check your phone before your feet hit the floor."*

Video Prompt: Static. The character's eyes open from shut to half; the phone screen flicks on; brain glows. 3s.

BEAT 24 *"You open an app. The feed refreshes. New content loads. Your nucleus accumbens fires."*

Video Prompt: Static. The loader spins, new cards snap in, and the gold beam flashes upward on each refresh. 3s loop.

BEAT 25 *"You scroll to trigger it again. You weren't looking for anything specific. You were pressing the lever."*

Video Prompt: Static frame, thumb scrubs up repeatedly; brain flashes gold with each motion. 2s loop.

BEAT 26 *"Then you see it. A product. A deal. A countdown timer."*

Video Prompt: Static. The countdown digits tick down; the green button gives a slow attention pulse. 3s.

BEAT 27 *"Something you didn't know you needed forty seconds ago."*

Video Prompt: Static split. The right thought bubble fills in with the product image while the left stays empty. 3s.

BEAT 28 *"Your brain doesn't consult your savings account. It doesn't ask whether you can afford it."*

Video Prompt: Static. The brain flicks one dismissive arm without turning around; a document slides slightly. 2s.

BEAT 29 *"It feels the anticipation of acquisition"*

Video Prompt: Static. The golden liquid rises higher in the skull; the brain rides the crest upward. 2s.

BEAT 30 *"and floods your system with the chemical that was built to make you act before you think."*

Video Prompt: Static. Gold lines stream down the body; the tiny prefrontal figure tumbles in the flood. 3s.

BEAT 31 *"And you tap buy now."*

Video Prompt: Static. The finger presses down; the gold burst pops at the contact point and fades. 1.5s.

BEAT 32 *"This is not weakness. This is not a character flaw."*

Video Prompt: Static. The red X strikes through 'WEAKNESS?'; the right figure straightens posture slightly. 2s.

BEAT 33 *"This is the most sophisticated consumer psychology operation in human history working exactly as designed."*

Video Prompt: Static. Graphs on the screens animate subtly; one brain operator turns a dial. 3s.

BEAT 34 *"On you. Every single day."*

Video Prompt: Static. The 'YOU' arrow bounces once; the grid behind shifts a hair to feel endless. 2s.

BEAT 35 *"Meet two people. Same income. Same city. Same year."*

Video Prompt: Static. The three centered labels fade in one by one. 3s.

BEAT 36 *"The first one, call her Dana, grew up watching her parents check price tags."*

Video Prompt: Static. The parent turns the product to read the tag; young Dana's eyes track it. 3s.

PARTE 1 COMPLETA — Beats 1–36 ✓

VIDEO PROMPTS — PARTE 2 (Beats 37–72)

BEAT 37 *"Budget was a word she heard at the dinner table."*

Video Prompt: Static. The 'BUDGET' speech bubble pops in; young Dana's head turns toward the parent. 2s.

BEAT 38 *"She learned early that money required decisions, and decisions required a pause."*

Video Prompt: Static. The pause symbol gently pulses; Dana's eyes move from product to wallet. 2s.

BEAT 39 *"She's never carried a credit card balance she couldn't pay in full at month's end."*

Video Prompt: Static. The green checkmark draws itself next to the '\$0.00'. 2s.

BEAT 40 *"Not because she has extraordinary self-control."*

Video Prompt: Static. Dana's calm brain blinks slowly; the empty space around her stays bare. 2s.

BEAT 41 *"Because nobody ever spent a billion dollars optimizing her dopamine system against her."*

Video Prompt: Static. The right-side control screens stay dark; one brain operator shrugs. 3s.

BEAT 42 *"The second one, call him Marcus, grew up in the era of one-click checkout,"*

Video Prompt: Static. The icons slowly orbit Marcus; the algorithm arrow inches ahead of him. 3s loop.

BEAT 43 *"push notifications, and algorithms that learned his preferences faster than he did."*

Video Prompt: Static. The prediction line extends one step ahead; the brain analyst taps it. 3s.

BEAT 44 *"Every platform he uses has a team of engineers"*

Video Prompt: Static. Two brain engineers lean toward the screen; one taps a pen on the clipboard. 3s.

BEAT 45 *"whose entire job is to reduce the friction between his impulse and his purchase."*

Video Prompt: Static. The brain swings the hammer; the 'FRICTION' wall cracks; the dial rotates to 0. 3s.

BEAT 46 *"They A/B tested the color of the buy button."*

Video Prompt: Static. The brain draws a red circle around panel A; its bar chart ticks up. 2s.

BEAT 47 *"They studied exactly how long the confirmation animation should last to maximize the feeling of satisfaction."*

Video Prompt: Static. The confirmation spinner resolves to a checkmark; the stopwatch hand sweeps and the brain nods. 3s.

BEAT 48 *"They built a machine calibrated to his specific psychology, and they run it twenty-four hours a day."*

Video Prompt: Static. The inward arrows pulse in sequence around the ring; the clock hand sweeps. 3s loop.

BEAT 49 *"Marcus is not less intelligent than Dana."*

Video Prompt: Static. The '=' sign draws itself in between the two; both blink simultaneously. 2s.

BEAT 50 *"Marcus is just the primary target of something Dana never had to fight at scale."*

Video Prompt: Static. The red crosshair locks onto Marcus with a small snap; Dana's side stays empty. 2s.

BEAT 51 *"And here's what those engineers know that most people don't. Friction is the enemy of impulse."*

Video Prompt: Static. The top arrow hits the wall and stops; the bottom arrow zips into the cart. 3s.

BEAT 52 *"Every second between want and buy is a second your prefrontal cortex"*

Video Prompt: Static. The little prefrontal figure rubs its eyes and starts to stand; the clock ticks. 3s.

BEAT 53 *"— the rational decision-making region of your brain —"*

Video Prompt: Static. The prefrontal figure raises its clipboard; the villain brain narrows its eyes at it. 2s.

BEAT 54 *"has time to wake up and ask the only question that matters: do I actually need this?"*

Video Prompt: Static. The sign lifts into view; the villain brain rolls its eyes. 2s.

BEAT 55 *"So the entire system is engineered to eliminate those seconds."*

Video Prompt: Static. The brain's hand slams 'SKIP'; the prefrontal figure topples; clock pieces scatter. 2s.

BEAT 56 *"One-click purchase. Saved payment information. Buy now, pay later. Same-day delivery."*

Video Prompt: Static. The four green checkmarks pop in one after another, clockwise. 3s.

BEAT 57 *"No waiting. No pause between the dopamine spike and the damage to your account."*

Video Prompt: Static. The red bracket squeezes the gap until it nearly vanishes. 2s.

BEAT 58 *"It works."*

Video Prompt: Static. The 'IT WORKS.' stamp drops in with a tiny shake on impact. 1.5s.

BEAT 59 *"The average American household carries over \$21,000 in non-mortgage consumer debt."*

Video Prompt: Static. The dark cloud drifts lower over the family; one figure's shoulders drop. 3s.

BEAT 60 *"Not because Americans are uniquely irresponsible."*

Video Prompt: Static. The red X swipes across 'UNIQUELY IRRESPONSIBLE'; the family relaxes slightly. 2s.

BEAT 61 *"Because Americans were the first generation to live inside a fully optimized dopamine extraction system"*

Video Prompt: Static. The conveyor moves; gold drops flow along the pipe into the corporate building. 3s loop.

BEAT 62 *"running in their pocket, on their wrist, and on every screen they look at"*

Video Prompt: Static. Each device glow travels up its dotted line and the brain pulses gold in turn. 3s loop.

BEAT 63 *"for an average of seven hours a day."*

Video Prompt: Static. The gold 7-hour wedge fills in around the clock face. 2s.

BEAT 64 *"The lever is everywhere now. And it never stops."*

Video Prompt: Static. The lever-shaped objects each give a tiny pulse as the character passes. 3s.

BEAT 65 *"But here's the part they never put on the packaging. And this is the part that changes everything."*

Video Prompt: Static. The red X strokes across the label; the brain peeks further out and smirks. 2s.

BEAT 66 *"Dopamine is not the pleasure chemical."*

Video Prompt: Static. The red strike-through draws across 'PLEASURE CHEMICAL'. 1.5s.

BEAT 67 *"For decades, that's what science called it. The reward molecule. The feel-good neurotransmitter."*

Video Prompt: Static. The scientist taps the chalkboard line; a little chalk dust puffs. 2s.

BEAT 68 *"But the research that came after tells a completely different story."*

Video Prompt: Static. The eraser wipes the old line; the new 'WANTING' line writes itself in. 3s.

BEAT 69 *"Dopamine is not what you feel when you enjoy something."*

Video Prompt: Static. The character chews slowly and contentedly while the brain stays dim gray. 2s.

BEAT 70 *"Dopamine is what you feel when you anticipate something."*

Video Prompt: Static. The food hovers near the mouth; the brain's gold glow flares brighter. 2s.

BEAT 71 *"It's the hunger, not the meal. The wanting, not the having."*

Video Prompt: Static. The gold glow pulses on the hunger icon while the meal icon stays flat. 2s.

BEAT 72 *"Which means the system was never designed to satisfy you."*

Video Prompt: Static. The brain leans back further; the wall chart's line creeps upward. 3s.

PARTE 2 COMPLETA — Beats 37–72 ✓

VIDEO PROMPTS — PARTE 3 (Beats 73–108)

BEAT 73 *"It was designed to keep you wanting."*

Video Prompt: Static. The desire curve extends upward and the looping arrow rotates once. 2s.

BEAT 74 *"A satisfied customer stops spending. A wanting customer never does."*

Video Prompt: Static. The left chart ticks down; the right chart climbs and packages stack higher. 3s.

BEAT 75 *"Satisfaction is a business risk. Desire is a business model."*

Video Prompt: Static. The brain points its arm toward the green 'DESIRE' sign and nods. 2s.

BEAT 76 *"This is why the package arrives and the feeling is already fading."*

Video Prompt: Static. The gold wisps drift up and dissolve; the character's eyes lower. 3s.

BEAT 77 *"This is why you've bought things you can barely remember."*

Video Prompt: Static. The character's head tilts as the eyes scan the shelves; the '?' bubble bobs. 3s.

BEAT 78 *"This is why the closet is full and the account is empty"*

Video Prompt: Static. The connecting arrow draws from the full closet to the empty account. 2s.

BEAT 79 *"and you still find yourself scrolling at midnight feeling like something is missing."*

Video Prompt: Static. The phone glow flickers with each scroll; the faint chest void pulses dimly. 3s loop.

BEAT 80 *"You were never going to find it. You were looking in exactly the place they built for you to look."*

Video Prompt: Static. The character walks a few steps into a dead end and stops; the 'SHOPPING' sign pulses. 3s.

BEAT 81 *"The neuroscientist Kent Berridge ran experiments in the 1990s that quietly broke the model everyone was using."*

Video Prompt: Static. The scientist leans in and makes a note; the rat shifts in the enclosure. 3s.

BEAT 82 *"He found a way to block dopamine in rats completely without touching their capacity for pleasure."*

Video Prompt: Static. The 'BLOCKED' barrier snaps onto the gold path; the pleasure region keeps a soft glow. 2s.

BEAT 83 *"The dopamine-free rats still showed enjoyment responses when food touched their mouths."*

Video Prompt: Static. The rat's cheeks glow softly and it gives a small satisfied wiggle. 2s.

BEAT 84 *"They could still feel good. They just stopped wanting."*

Video Prompt: Static. Left rat keeps its soft glow; right rat lies still as the lever sits ignored. 2s.

BEAT 85 *"They stopped seeking. They lay still and waited."*

Video Prompt: Static. The rat's chest rises and falls slowly; nothing else moves. 2s.

BEAT 86 *"Then he reversed it. He amplified the dopamine signal without increasing pleasure."*

Video Prompt: Static. The gold path swells and brightens while the pleasure region stays the same soft size. 2s.

BEAT 87 *"Those rats wanted desperately. They worked harder, pressed levers longer, pursued rewards more aggressively."*

Video Prompt: Static. The rat's paws pump the lever fast; gold bursts flash rapidly above. 2s loop.

BEAT 88 *"But when they got what they were chasing, the satisfaction was flat."*

Video Prompt: Static. The rat holds the pellet; the 'SATISFACTION' graph stays a dead flat line. 2s.

BEAT 89 *"They wanted more without ever feeling more."*

Video Prompt: Static. Left side bursts gold rapidly; right side stays a flat line; the 'NO BRIDGE' gap holds. 3s.

BEAT 90 *"Wanting and liking. Two completely separate systems in the brain."*

Video Prompt: Static. Each zone lights in turn — gold 'WANTING', then soft 'LIKING' — across the divider. 3s.

BEAT 91 *"And the one being monetized — every app, every algorithm, every push notification — is wanting."*

Video Prompt: Static. The cables pulse gold from the icons into the 'WANTING' zone; 'LIKING' stays dark. 3s loop.

BEAT 92 *"Not your happiness. Your hunger."*

Video Prompt: Static. The red strike crosses 'HAPPINESS'; the brain taps 'HUNGER' and it glows gold. 2s.

BEAT 93 *"So what do you actually do with this?"*

Video Prompt: Static. The character holds a steady gaze; the question mark gently pulses once. 2s.

BEAT 94 *"You cannot think your way out of a dopamine loop."*

Video Prompt: Static. The gold loop spins; the small figure strains against it and slides back. 2s loop.

BEAT 95 *"You cannot reason past a system that was built by teams of neuroscientists and behavioral economists"*

Video Prompt: Static. The terminal screens flicker with data; the lone figure looks up at the giant display. 3s.

BEAT 96 *"and tested on hundreds of millions of users before it ever reached you. That's not a fair fight."*

Video Prompt: Static. The scale tips further down on the 'millions' side; the lone figure rises helplessly. 3s.

BEAT 97 *"And anyone who tells you it comes down to willpower has never looked at what willpower actually is in the brain"*

Video Prompt: Static. The 'WILLPOWER' battery bar drops a notch; the red indicator blinks. 2s.

BEAT 98 *"a limited resource that depletes across a day and fails under stress, which is exactly when the lever gets pressed hardest."*

Video Prompt: Static. The right battery drains to red as the frazzled character pumps the glowing lever. 3s.

BEAT 99 *"You build friction instead."*

Video Prompt: Static. The character sets the last brick of the 'FRICTION' wall into place and steps back. 2s.

BEAT 100 *"The same way the system removes friction to make you spend, you add it back deliberately"*

Video Prompt: Static. Left dial turns to 0; right dial turns back up; the two motions mirror. 3s.

BEAT 101 *"to give your prefrontal cortex the seconds it needs to do its job."*

Video Prompt: Static. The prefrontal figure checks the clipboard against the ticking clock; the brain waits behind the barrier. 3s.

BEAT 102 *"You delete saved payment information. You put 24 hours between wanting something and buying it."*

Video Prompt: Static. The 'SAVED' card drops into the bin; the '24h' arc draws between the two markers. 3s.

BEAT 103 *"You use cash for the categories where you consistently overspend,"*

Video Prompt: Static. The cash passes from hand to hand; the character winces slightly as it leaves. 2s.

BEAT 104 *"because the physical sensation of handing over money activates what researchers call the pain of paying"*

Video Prompt: Static. The red spark flicks at the fingertips as the cash leaves; the prefrontal figure looks up. 2s.

BEAT 105 *"a real neurological response that card tapping completely bypasses."*

Video Prompt: Static. Left side sparks red; right side taps smoothly with no spark and a sleeping brain. 3s.

BEAT 106 *"You remove apps that function as lever systems from your home screen."*

Video Prompt: Static. One glowing lever-app icon is dragged off-screen and the home screen calms. 2s.

BEAT 107 *"You are not fighting weakness. You are fighting infrastructure."*

Video Prompt: Static. The red X strikes 'WEAKNESS'; the character squares up to the 'INFRASTRUCTURE' machine. 2s.

BEAT 108 *"And you fight infrastructure by redesigning the environment, not by trying to overpower it."*

Video Prompt: Static. The character slides one labeled block into a new position; blueprint lines snap to it. 3s.

PARTE 3 COMPLETA — Beats 73–108 ✓

VIDEO PROMPTS — PARTE 4 (Beats 109–127)

BEAT 109 *"One participant in a behavioral savings study saved an additional \$14,000 over three years"*

Video Prompt: Static. The green bars rise step by step toward the '+\$14,000' label. 3s.

BEAT 110 *"through a single structural change. She moved her savings to a bank with no mobile app."*

Video Prompt: Static. The phone's banking app winks out; the solid brick bank stands plainly behind her. 2s.

BEAT 111 *"No instant transfers. If she wanted that money, she had to make a deliberate physical trip and wait."*

Video Prompt: Static. The character takes a few steps along the path; the 'WAIT' signpost passes by. 3s.

BEAT 112 *"She never touched it."*

Video Prompt: Static. The distant hand lifts slightly, then lowers and relaxes; the door stays closed. 2s.

BEAT 113 *"Not because she had more willpower than the person beside her. Because she built a better cage."*

Video Prompt: Static. Left figure keeps mashing the lever; right character stands calm in the better-built space. 3s.

BEAT 114 *"The rats in Montreal pressed the lever until they died"*

Video Prompt: Static. A faint dust settles around the still rat; nothing moves. 3s.

BEAT 115 *"because the lever was the only thing in the cage and they had no ability to see the cage from the outside."*

Video Prompt: Static. A very slow push toward the lone lever; the bars stay closed around the frame. 3s.

BEAT 116 *"You can."*

Video Prompt: Static. The character pulls a bar aside; warm light widens across their face. 2s.

BEAT 117 *"The dopamine trap is not a personal failure."*

Video Prompt: Static. The red strike crosses 'PERSONAL FAILURE'; the character's posture stays steady. 2s.

BEAT 118 *"It is a designed system running on hardware that evolution built to help you survive scarcity"*

Video Prompt: Static. The gold glow appears in the savanna, then reappears identically in the modern aisle. 3s.

BEAT 119 *"not to protect you from an industry that turned abundance into addiction."*

Video Prompt: Static. The shelf seems to extend upward; the small figure's gold brain flickers. 3s.

BEAT 120 *"Your brain was never broken. It was just never meant for this."*

Video Prompt: Static. The character exhales; the brain inside settles into a calm, neutral expression. 2s.

BEAT 121 *"But you are not a rat. You can see the lever. You can study who built it and why."*

Video Prompt: Static. The character turns the lever over, examining it; the contained brain watches quietly. 3s.

BEAT 122 *"And you can, slowly and imperfectly, build an environment"*

Video Prompt: Static. The character sets another labeled block; one sits slightly crooked but holds. 3s.

BEAT 123 *"where your brain's oldest instincts and your actual financial future are not working directly against each other."*

Video Prompt: Static. The two opposing arrows slowly rotate until they point the same way, side by side. 3s.

BEAT 124 *"That decision doesn't come with a notification."*

Video Prompt: Static. The phone stays dark; the crossed-out bell holds; the character is still. 2s.

BEAT 125 *"It doesn't arrive in two days."*

Video Prompt: Static. The empty doorstep holds; the crossed-out box icon stays faint. 2s.

BEAT 126 *"It doesn't release dopamine when you make it."*

Video Prompt: Static. The brain rests still and neutral; pointedly no gold flash occurs. 2s.

BEAT 127 *"That's exactly how you know it matters."*

Video Prompt: Static. The character holds a steady, calm gaze; the warm light settles. 3s — final frame.

PARTE 4 COMPLETA — Beats 109–127 ✓
